INDEX :

PART 1: HOW TO INSTALL THIS SOFTWARE

PART 2: HOW TO SETUP SOFTWARE IN THE SYSTEM

PART 3: SETTING DATABASE

PART 4: HOW TO RUN THIS SOFTWARE

PART 1: HOW TO INSTALL THIS SOFTWARE

#1: To install this software user need to have following softwares installed in the system.

- 1.PHP5 or newer version of PHP.
- 2.Apache2
- 3.Mysql
- 4.Phpmyadmin
- 5.Composer
- 6.Slim3
- 7.Monolog
- 8.Twig
- 9.PHP Render
- 10.PHP mailer and sendmail.

Users should install above softwares in given order and Slim 3, Monolog, Twig ,PHP Render and PHP mailer and sendmail should be installed through Composer.

PART 2: HOW TO SETUP SOFTWARE IN THE SYSTEM

#1: After installation of softwares given in part 1 is completed, then install this software in your system. Its location should be var/www/html folder.

#2: After installing this software, you will find "sep" sub-folder in your html folder as mentioned in 1st point, then

open 'sep' folder -> src -> dbstuff -> config.php

#3: Open config.php :

It looks like:

```
<?php
```

```
// contains db and api configuration
```

```
// #defines
```

```
define('DB_USERNAME', 'your_username');
```

```
define('DB_PASSWORD', 'your_password');
```

```
define('DB_HOST', 'localhost');
```

```
define('DB_NAME', 'LMS');
```

```
?>
```

Change the first two lines, in place of your_username, type your username and in place of your_password type your MySQL password.

PART 3: SETTING DATABASE

#1: Create a database named LMS then download db.sql file.

#2: Import db.sql in Phpmyadmin.

#3: Insert some data in account to run this software.

In "account" table you will find a attribute named as "TYPE"

Insert value in "TYPE" :-

(a).[1] to open simple user page.

(b).[2] to open recommender page.

(c).[3] to open approvar page.

(d).[4] to open admin page.

PART 4: HOW TO RUN THIS SOFTWARE

#1: Start your apache2 server

#2:Type : `http://localhost/sep-2/src/public/` in your browser.

#3 :A login page will appear.

Enter username and password according to type of users as spacificied in PART3 (point 3).
